

AEHSAS Foundation: Comprehensive Organizational Document for Chatbot Training and Knowledge Representation

1. Overview of AEHSAS Foundation

The AEHSAS Foundation, headquartered in Aligarh, Uttar Pradesh, is a non-profit organization registered under the Societies Registration Act, 1860. The foundation operates across Uttar Pradesh, aiming to empower marginalized and underprivileged communities through a multi-faceted approach that spans education, health, skill development, rural upliftment, and socio-economic sustainability.

AEHSAS stands for inclusive growth, community empowerment, sustainable development, and educational upliftment. The foundation works closely with central and state governments, corporations, boards, and national and international organizations to implement grassroots-level programs and create meaningful, measurable change.

1.1 Our story

What began as a humble effort by a group of students from Aligarh Muslim University (AMU) in 2015–2016 soon grew into a quiet revolution. Moved by the harsh reality that quality education remained out of reach for many, these young Changemakers started collecting small donations from their hostels, neighbourhoods, and acquaintances. With those modest contributions, they funded the education of underprivileged students, provided career counselling, and offered free coaching — all without any formal structure or recognition. It wasn't an organisation then — just a shared belief that every child deserves a chance. Over the years, despite personal challenges and evolving career paths, their commitment never faded. In 2024, that unwavering spirit found a name: AEHSAS Foundation, where A, E, H, S A, S stand for Awareness, Education, Health, Sustainable Advancement, Sanitisation. Born out of compassion and driven by purpose, AEHSAS is more than an NGO — it's a growing movement dedicated to uplifting lives and restoring dignity. While education remains at our heart, our mission now extends to healthcare, environmental awareness, skill development, and beyond, with a powerful vision that has evolved from "every child deserves a chance" to "everyone deserves a chance."

2. Mission and Vision

Mission: To empower underprivileged and marginalised communities through inclusive education, accessible healthcare, environmental protection and cleanliness, sustainable livelihoods, and next-generation skill development. AEHSAS is committed to harnessing both traditional wisdom and frontier technologies, especially Artificial Intelligence (AI), to design

human-centric, scalable, and resilient solutions that foster equity, dignity, and long-term impact across society.

Vision: To build a future-ready, inclusive, and compassionate society where the synergy of human empathy and technological innovation uplifts every life. Our vision is anchored in the principles of education, social justice, sustainability, and opportunity for all.

3. Scope

AEHSAS Foundation works to uplift underprivileged and marginalized communities by combining traditional community services with the practical use of emerging technologies like Artificial Intelligence. Our efforts focus on accessible education, basic healthcare, skill development, and community welfare, especially in rural and semi-urban areas. By leveraging AI tools for social good, we aim to make these services more efficient, inclusive, and impactful. This approach helps us stay rooted in grassroots realities while innovating to serve the most vulnerable.

4. Organizational Objectives

AEHSAS Foundation's objectives span across multiple domains, each with distinct focus areas. Each initiative is designed to address specific social challenges and deliver long-term impact through structured intervention and measurable outcomes.

4.1 Education Initiatives

Goal: Ensure access to quality education and holistic development for all children, especially from marginalized communities.

- **Free Education:** AEHSAS commits to providing free education from primary to higher secondary levels. This initiative targets economically weak children, especially in rural and urban slum areas. The aim is to eliminate financial barriers that prevent children from continuing their studies.
- **Educational Institutions:** The foundation establishes CBSE-affiliated schools, madrasas for religious and community-based education, degree colleges, Industrial Training Institutes (ITIs), and distance education centers. These institutions cater to academic, vocational, and technical training needs. They not only reduce regional educational disparities but also increase employability.
- **Infrastructure Support:** AEHSAS promotes self-learning and holistic development by building libraries, reading rooms, sports complexes, and hostels. These facilities help underprivileged students, especially from remote areas, to access safe and resource-rich environments conducive to education.
- **Scholarships and Resources:** The foundation provides students with scholarships, books, uniforms, stationery, and mid-day meals to enhance retention and performance.

The mid-day meal program helps combat child malnutrition and incentivizes regular school attendance.

- **Inclusion-Focused Approach:** Special focus is placed on educating orphans, differently-abled, and socially disadvantaged children. Accessible infrastructure, assistive technologies, and tailored learning modules are introduced to ensure inclusive education.

4.2 Health and Medical Welfare

Goal: Provide equitable access to preventive and curative healthcare, especially in underserved regions.

- **Medical Facilities:** AEHSAS sets up dispensaries, clinics, and mobile health vans to provide free medical consultations, medicines, and basic diagnostics in rural and low-income urban areas.
- **Health Awareness and Donation Drives:** The foundation organizes blood donation and eye donation camps to build community engagement and increase critical resources for hospitals.
- **Emergency Medical Services:** Free ambulance services and night shelters are provided for the homeless and economically weak populations, offering safety and healthcare access during crises.
- **Preventive Healthcare:** Awareness programs about personal hygiene, sanitation, nutrition, and maternal-child health are organized in collaboration with ASHA workers and local health departments.
- **Disaster and Pandemic Relief:** AEHSAS actively participates in providing medicines, oxygen, protective gear, and vaccinations during emergencies such as floods, earthquakes, or pandemics like COVID-19.

4.3 Skill Development and Employment Training

Goal: Improve employability and self-reliance among youth, especially in rural and marginalized communities.

- **Vocational Training:** The foundation runs certified programs in sewing, embroidery, carpentry, computer literacy, mobile repairing, beautician work, and other trades. These programs are designed in consultation with local employment trends and industry demands.
- **Promotion of Local Industries:** AEHSAS encourages rural entrepreneurship by reviving traditional handicrafts, weaving, pottery, and food processing businesses.
- **Institutional Collaboration:** Partnerships with CAPART, NABARD, and NSDC help with funding, certification, and resource mobilization.
- **Digital Literacy:** AEHSAS offers training in coding, AI, software development, and other digital skills. This modern approach helps youth compete in the global job market.

4.4 Women Empowerment

Goal: Foster gender equality, dignity, and socio-economic participation among women.

- **Support Centers:** Women's counselling and protection centers offer support against domestic violence, workplace harassment, and legal rights violations.
- **Mass Marriages:** Organizing dowry-free mass marriage events for underprivileged girls to reduce financial and social burdens.
- **Self-Employment:** Women are trained in microenterprises like tailoring, food packaging, and handicrafts. AEHSAS helps them form Self-Help Groups (SHGs) and connects them with microfinancing institutions.

4.5 Child Welfare

Goal: Ensure the safety, development, and care of abandoned or vulnerable children.

- **Shelter and Protection:** AEHSAS manages orphanages and Bal Ashrams that provide housing, education, and emotional support.
- **Basic Needs:** Nutritional meals, healthcare, clothing, and educational support are prioritized to ensure the well-being of each child.

4.6 Senior Citizen Welfare

Goal: Support abandoned and poor elderly individuals with dignity and care.

- **Old Age Homes:** AEHSAS operates free residences for senior citizens who lack family support.
- **Essential Support:** Distribution of food, winter clothing, blankets, and medicine.
- **Social Engagement:** Celebratory events and health check-up camps keep elders physically and emotionally healthy.

4.7 Disaster Relief and Emergency Services

Goal: Respond swiftly and compassionately during crises.

- **Relief Materials:** Distribution of ration kits, medicines, clean water, and clothing during natural calamities.
- **Temporary Camps and Medical Support:** AEHSAS sets up camps, portable toilets, and medical vans in affected regions.
- **Coordination and Collaboration:** Collaborates with district authorities, NDRF, and NGOs for efficient emergency management.

4.8 Environmental Protection

Goal: Promote ecological balance and sustainable living.

- **Awareness Drives:** AEHSAS conducts workshops on climate change, zero-waste lifestyles, and environmental conservation.
- **Tree Plantation and Water Management:** Drives are held in schools, public spaces, and community centers.

- **Sustainable Farming:** Promotes organic fertilizers, water-saving irrigation, and mushroom farming as low-cost, high-yield alternatives.

4.9 Livestock and Agriculture Development

Goal: Strengthen rural economies through animal husbandry and improved agricultural practices.

- **Veterinary Health Services:** Periodic vaccination camps and mobile veterinary clinics help livestock health.
- **Training and Resources:** Farmers are trained in organic techniques, poultry, and dairy management. Seeds, compost, and feed are distributed.

4.10 Public Awareness and Cultural Activities

Goal: Build informed, inclusive, and harmonious communities.

- **Adult Literacy Programs:** Night schools and informal learning centers for working adults.
- **Cultural Events and Exhibitions:** Used as mediums to spread social messages and foster communal harmony.
- **Health and Social Campaigns:** Awareness about drug addiction, HIV/AIDS, sanitation, and prohibition through media and events.

5. Structure and Governance

AEHSAS Foundation practices participatory governance that ensures transparency, accountability, and democratic participation in decision-making. The governance framework ensures every stakeholder, including members and beneficiaries, has access to institutional mechanisms for feedback, oversight, and representation.

5.1 Membership Types

- **Lifetime Members:** Members who contribute a one-time fee of INR 501 or equivalent property. They have full voting rights in the annual General Body Meeting and can be nominated to committees. Their ongoing commitment supports strategic continuity.
- **Special Members:** Selected by the Managing Committee for distinguished contributions to social, educational, or philanthropic causes. These members may offer advisory support and participate in policy formulation.
- **Patron Members:** These are high-value donors or founders who contribute INR 1001 or significant property. They provide strategic inputs and play a critical role in networking, fundraising, and vision alignment.

- **General Members:** Individuals who contribute INR 250 annually and engage in the foundation's activities, awareness programs, and volunteer efforts. They may assist in outreach, on-ground activities, and local governance.
- **Position Holders:** Individuals who want to contribute to society by using their expertise as Position Holders can hold a fitting position in the NGO just for INR 250.

Membership Roles and Responsibilities:

- Participate in awareness drives, community meetings, and training workshops.
- Elect office-bearers and provide grassroots feedback.
- Promote the foundation's objectives in their communities.
- Facilitate coordination with local stakeholders and agencies.
- Take care of the operations of the NGO and compliance with the Policies and Guidelines.

5.2 Committees

- **General Body:** Comprising all registered members, it is the supreme authority in the governance structure. It meets annually to:
 - Review performance and approve annual reports.
 - Elect or renew the Managing Committee.
 - Approve budgets, audits, and strategic changes.
 - Recommend constitutional amendments if needed.
- **Managing Committee:** A smaller, elected body responsible for executing decisions of the General Body. It handles:
 - Program execution and resource allocation.
 - Liaison with external stakeholders and donors.
 - Recruitment and supervision of staff.
 - Oversight of financial and operational compliance.

Subcommittees may be formed for specific domains such as education, health, or disaster relief to ensure focused and specialized attention.

5.3 Roles

- **President:** The chief executive authority and signatory for all legal, financial, and policy decisions. The President:
 - Chairs meetings and sets long-term goals.
 - Oversees strategic partnerships.
 - Ensures legal compliance and representation in judicial matters.
- **Secretary:** The operational head, responsible for:
 - Day-to-day administration and staff management.
 - Implementation of the Managing Committee's decisions.
 - Filing returns, submitting reports, and ensuring program efficiency.
- **Treasurer:** The financial custodian who:
 - Maintains detailed financial records.
 - Prepares annual budgets, disbursement plans, and audit coordination.

- Ensures transparency in donor reporting and fund utilization.

All office bearers serve fixed terms as per the foundation's bylaws and must disclose any conflict of interest in financial or operational decisions.

5.4 Organizational Composition and Activities

Past Events and Initiatives: AEHSAS Foundation has successfully organized multiple free Coaching, Career Counseling and educational scholarships to the needy and deserving individuals, offered internships and held skill development workshops for youth. Special attention is given to programs in underserved areas of Uttar Pradesh.

Number of Members: AEHSAS Foundation currently consists of over 20+ registered members including Lifetime, Patron, General, and Special Members. A large number of volunteers and youth ambassadors also support its initiatives across different districts.

Office Bearers:

- **President:** Mr. Mohsin Anwer – A dedicated social activist and educationist, with years of experience in managing charitable and community development programs. He oversees organizational strategy and external partnerships.
- **Secretary:** Mr. Mohd Faizan – Responsible for day-to-day operations and coordination of programs.
- **Treasurer:** Mr. Rizwan Ahmad Saifi – In charge of financial planning, budget reporting, and donor transparency.

These core members are supported by program coordinators, district volunteers, field staff, and a network of advisory members drawn from academic, legal, and medical fields.

Membership Fees Summary:

- General Member: INR 250/year
- Lifetime Member: INR 501 (one-time)
- Patron Member: INR 1001 (one-time)
- Special Member: Honorary (selected for contributions, no mandatory fee)
- Position Holder: INR 250 (one-time)

Members enjoy participation rights, and voting privileges, and are actively involved in foundation activities depending on their membership tier.

6. Collaborations and Funding Sources

AEHSAS works with:

- **Government Ministries:** For scheme implementation and scaling.
- **National Organizations:** NSDC (skill training), NABARD (rural development), KVIC (cottage industries).

Funding comes from:

- Government grants and welfare schemes.
- Corporate CSR.
- Self-generated income through training or local product sales.

7. Documentation and Record Keeping

AEHSAS ensures accountability by maintaining:

- Membership and beneficiary registers
- Minutes of meetings
- Financial ledgers and receipts
- Stock registers and audit reports

This helps maintain transparency and pass regulatory scrutiny.

8. Legal Compliance

The foundation ensures:

- Proper registration under Societies Act, 1860
- Annual audits and financial reports
- Authorized legal representation in court matters
- Bank operations only through recognized banks

9. Beneficiary Demographics

AEHSAS primarily serves:

- Rural and urban poor
- Women, children, senior citizens
- Orphans and street children
- Persons with disabilities
- Unemployed youth
- Farmers and artisans

10. Monitoring and Evaluation

- Regular program assessments and audits
- Community feedback through surveys, reviews, meetings
- Impact measurement through baseline and outcome data
- Periodic reporting to donors and regulatory bodies

11. Integration with Technology

AEHSAS incorporates technology to improve scale and effectiveness:

- **Chatbots** for answering FAQs and guiding beneficiaries
- **Online portals** for donations, service applications, and volunteer registration
- **Data analytics** to assess program impact, optimize resource use, and make informed decisions

12. Leveraging Artificial Intelligence for Social Impact

AEHSAS Foundation recognizes the transformative potential of Artificial Intelligence (AI) and Machine Learning (ML) to accelerate social change and improve service delivery. As part of our strategic direction, we are integrating AI into various programs to enhance responsiveness, increase operational efficiency, and democratize access to critical services.

12.1 AI Use Cases and Implementation Strategy

1. Chatbots for Community Engagement

- AI-driven chatbots will be deployed on our website and mobile applications to assist users 24/7.
- They will answer FAQs about scholarships, education centers, medical services, volunteer registration, and donations.
- Chatbots will support multiple languages (Hindi, Urdu, English) to serve linguistically diverse communities.

2. Predictive Analytics for Healthcare

- AI models will help identify high-risk populations based on demographic and health trends.
- Predictive tools can assist in early intervention strategies for diseases, maternal care, and vaccination needs.

3. AI in Education

- Adaptive learning platforms tailored for children in under-resourced areas will be explored.
- AI will help personalize content based on student performance, making remote education more effective.

4. **Skill Matching and Employment**

- Machine learning tools will help match youth and women trained by AEHSAS with local job opportunities.
- AI can also assist in identifying emerging skill trends and modifying training modules accordingly.

5. **Environmental Monitoring**

- Use of AI sensors or remote sensing data to analyze environmental degradation, pollution levels, or afforestation efforts.
- Smart dashboards will allow decision-makers to allocate resources more effectively.

6. **Emergency and Disaster Relief**

- AI algorithms can help optimize logistics during natural calamities by mapping demand areas and routing supplies.
- Natural language processing (NLP) tools may be used to monitor social media for distress signals.

12.2 **Ethical Framework and Data Security**

AEHSAS will follow a strict ethical and inclusive framework when deploying AI:

- No exploitation of personal data.
- Transparent algorithms with community oversight.
- AI tools will be designed for equity, accessibility, and inclusion.

12.3 **Future Vision**

The goal is to evolve AEHSAS Foundation into a **tech-enabled grassroots NGO** where AI tools support real-time decision-making, inclusivity, and better impact tracking—without replacing human empathy or cultural context.

AEHSAS Foundation Chatbot Training Data (Intents, Entities, and FAQs)

1. Introduction

This document outlines the core training data structure and conversational design for AEHSAS Foundation's AI-powered chatbot. It is based on the foundation's official documentation, mission, objectives, and related NGO best practices.

2. Chatbot Persona

Name: AehsaasBot

Tone: Friendly, informative, respectful, and inclusive.

Languages: English (Primary), Hindi (Support planned)

3. Core Intents

Intent Name	Description
ask_about_education	Questions about free education, schools, and scholarships
ask_about_membership	How to become a member or types of membership
ask_about_volunteering	Volunteer opportunities and application process
ask_about_donations	Donation methods and purposes
ask_about_schemes	Government schemes or partner programs offered
ask_about_skills	Skill development programs available
ask_about_ai	Role of AI in AEHSAS Foundation's work
ask_about_health	Medical services, mobile clinics, or camps
ask_about_emergency	Disaster relief and emergency services
ask_about_contact	How to reach the foundation/contact us
fallback	Default intent when the question is unclear

4. Entities

Entity	Values/Examples
location	Aligarh, Lucknow, Uttar Pradesh, India
education_level	primary, secondary, higher secondary, technical
training_type	sewing, embroidery, carpentry, beautician, AI, coding
user_type	student, volunteer, donor, partner, member
membership_type	lifetime, patron, general, special

5. Sample FAQs with Responses

Question	Response	Intent
How can I join as a volunteer?	You can join by filling our volunteer form on the website. Once submitted, our team will contact you within 72 hours.	ask_about_volunteering
What kind of education do you provide?	AEHSAS Foundation provides free education from primary to higher secondary level, including technical and distance learning.	ask_about_education
Do you offer any medical services?	Yes, we run mobile clinics, dispensaries, health camps, and offer free ambulance services.	ask_about_health
How can I donate to AEHSAS Foundation?	You can donate online via our website or through direct bank transfers. All donations are tax exempt under 80G.	ask_about_donations
What types of membership are available?	We offer lifetime, general, patron, and special memberships. Each has unique privileges and responsibilities.	ask_about_membership
Do you use AI in your work?	Yes! We use AI to run chatbots, predict beneficiary needs, optimize donation impact, and improve outreach.	ask_about_ai
What should I do in case of a local flood?	AEHSAS Foundation runs relief camps, distributes food, and offers shelter during floods. Please call our helpline for assistance.	ask_about_emergency

6. Suggested Flows

Flow: Become a Volunteer

- Greet → Ask user name → Ask city → Ask area of interest → Show form or contact info

Flow: Apply for Education

- Ask for student level (primary, secondary, etc.) → Provide center or form → Offer scholarship info

Flow: Donate

- Ask amount → Provide payment gateway options → Confirm tax certificate info → Thank you

7. Multilingual Support (Coming Phase 2)

Support for:

- Hindi (देवनागरी)

Sample:

- English: "How do I volunteer?"
- Hindi: "मैं स्वयंसेवक कैसे बन सकता/सकती हूँ?"

8. Feedback Collection Intent

- Ask user: "Was this information helpful? (Yes/No)"
- If No → Ask: "Would you like to speak to a human representative?"
